2023 Wheat Schedules of Insurance/Production Reports

The Schedule of Insurance shows the number of acres, location, your share, plant date, amount of insurance you have, who else has a share, etc. **PLEASE take a little time to go over this form. Make sure this info is all correct!**

Please double check your wheat Schedules of Insurance with your maps. We can apply to make revisions if you are over 5% tolerance on acres, which will be considered on a case by case basis. We cannot make revisions after a notice of loss is filed or the adjuster is already looking at your FSA certification papers. Tolerance rule includes any changes in liability, acres, share and APH errors.

Call us immediately if something is not right!!

TAX TIME

If you were paid a loss of \$600 or more you will receive a 1099. It's a good idea to keep your summary of loss check receipts. Be sure to count any indemnity withheld to pay premium as an expense.

MORE IMPORTANT INFO:**~ Cattle Grazing Wheat ~
Short Rating Wheat**

A reduced premium is available for small grains (wheat, barley, oats) listed on the acreage report that is intentionally destroyed prior to harvest. A revised acreage report **MUST** be completed by March 15th.

Short Rated acres are to be **DESTROYED** and **NOT HARVESTED**. *If you do not intend to harvest grazed acres, cattle must be pulled off before the wheat reaches the joint stage.*

Livestock Risk Protection

Better Subsidy levels!
Time to take a look at LRP
We can only write these contracts between 3:30 pm and 9:00 am. Give us a call so we can help cover your risk.

!! SIGNATURES !!

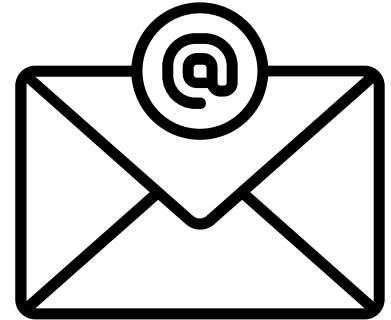

Signatures need to be correct on reports. RMA is reviewing them more and more. If documents **ARE NOT** signed correctly this could **VOID** your policy.

Signature Name listed on the policy by you and your authority to sign on the policy (POA, Trustee, Manager, Partner, etc.)

**Online RCIS & NAU
Producer Portal:**
